

Explain

Unit ①

- ① Explain about various cloud delivery model?
- ② What are advantages of using delivery model in cloud?
- ③ What are the advantages of delivery model in cloud?
- ④ Explain Cloud service model architecture.

Unit ②

- ① Explain characteristics of IaaS?
- ② Explain briefly about IaaS delivery model?
- ③ What are advantages and disadvantages of IaaS?
- ④ What are the examples of IaaS? Explain.
- ⑤ ^{Explain} Architecture of IaaS?
- ⑥ Write applicability in the industry of IaaS?

Unit ③

- ① What is platform as a service? Explain its service delivery model.
- ② What are characteristics of platform as a service?

③ write about patterns and Examples of Services?

④ Explain about Architectures of platform as a Services with neat diagram?

⑤ write applicability in the Industry of Platform as a service?

Unit ④

① What is SaaS? Explain about its Service delivery model?

② Explain characteristics of SaaS?

③ Draw neat diagram of SaaS architecture and Explain.

④ what are the advantages and disadvantages SaaS? Write examples of SaaS.

⑤ write applicability in the Industry of SaaS?

Unit ⑤

① Write the Benefits of CCRA (Cloud Computing Reference Architecture)?

② Explain about Complete architecture of CCRA. Draw the diagram neatly.

③ Draw the diagram of Architecture overview. Explain it.

④ What are the applications and versions of CCRA (cloud Computing Reference Architecture) for developing Clouds?
